

## COVID Protection Framework - **RED LEVEL**

*At the RED setting, action is needed to protect at-risk people and protect our health system from an unsustainable number of hospitalisations.*

*We have number restrictions at the RED setting and only ONE support person per rider is allowed and unfortunately we are not open for spectators.*

*Woodhill Sands is operating this show under the the Covid Vaccine Certificate setting. A My Vaccine Pass (MVP) is required for entry for ALL people wanting to gain access to the site over the age of 12 years and 3 months. Riders may upload and verify their MVP with Evo Events prior to the event. Everyone on site, including support people, staff and officials should report into the MVP check point to have their pass checked and verified and receive confirmation this has been done with a stamp or wrist band. Riders who have verified via Evo Events still need to present themselves to the MVP check point. You may be asked to produce a MVP for verification at any time on site, if you do not have a stamp/wrist band.*

*So we don't exceed gathering restrictions there will be designated parking areas to manage capacity limits. Information will be sent out with entries for which area you are in. Within that area you will not need to practice social distancing but if you leave this area, social distancing of 2m MUST be adhered to at all times. Masks are required when not riding and should be worn when using the toilets, office, wash down bays or kiosk.*

*Please make sure you continue to practise clean hygiene practices to ensure the safety of yourself and others around you.*

*Please make sure **you or anyone you know coming to the show** have not had **close contact with**, or been advised that you or they are a close contact of, **a confirmed or probable case of COVID-19, or a person awaiting a COVID-19 test result** and **do not attend the venue** if you or they **are unwell and displaying any COVID-19 symptoms**.*

*Regularly wash and thoroughly dry your hands or use hand sanitiser.*

*Sneeze and cough into your elbow.*

*Practice social distancing*

*If you have cold, flu or COVID-19 symptoms, stay home and get a test.*

*Please make sure that you **scan the QR code** on the gate (or located at numerous locations around the venue). There is also manual register outside the office.*
